There is a large selection on AKIUCO-
Accessories like fountains, springs, tables,
benches, planting pots, bird baths, vases,
balls and more in different kinds of stones.

Each piece is individually and carefully
produced from natural stones. The range of
process stretches from rough, rustic to
elegant polished surfaces.

Even special wishes can be realized.
Therefore an exact drawing is required. This
must show the measurements of each part,
the shape and the requested process.
