

Made by machine (+/- 1 mm)
Sides & bottom sawed
Surfaces: Flamed, pointed, hammered
Stones: Granite, Basalt or Sandstone
Measurements: see list of products

Sawed AKIUCO-Paving slabs give your house and garden a special appearance.

The flamed, hammered or polished surfaces make it easy to walk. Due to slip hazard an use outside is not recommended for polished surfaces. The slabs can be put in grit or concrete and primarily be used in private areas of light exposure.

The AKIUCO-slabs you can get in different kinds of stones and surfaces. Additional measurements and forms of process can be obtained on special
